EXPERIENCE

Software Development Engineer Intern | DhagaKart

Feb 2025 – Jul 2025

Remote

- Served as the sole developer for a full-stack B2B e-commerce platform used by 500+ wholesale customers, handling everything from UI design to deployment.
- Reduced initial page load time by 25% through front-end optimizations like code-splitting and lazy loading.
- Strengthened platform security by building a robust authentication system using secure cookies and Google OAuth 2.0.

Software Development Engineer Intern | GoodGutProject

Dec 2024 – Jan 2025

Remote

- Developed and optimized over 30 scalable RESTful APIs using Node.js/Express to handle high-volume data requests efficiently.
- Halved average query latency (180ms → 90ms) by refactoring and indexing complex PostgreSQL queries.
- Implemented Role-Based Access Control (RBAC) and OAuth 2.0 to ensure secure and appropriate data access.

PROJECTS

SchemaTalk | Node.js, Azure OpenAI, PostgreSQL

Mar 2025 – Apr 2025

- Built an Azure OpenAI-powered service to translate natural language questions into executable SQL, streamlining data analysis for non-technical users.
- Tuned PostgreSQL indexes and analyzed execution plans to optimize database performance and reduce query costs.

IIIT Kota Alumni Portal | MERN, Tailwind CSS, JWT

Sep 2024 – Dec 2024

- Engineered a secure portal with JWT authentication and RBAC, successfully onboarding over 2,000 alumni in the first month.
- Implemented real-time search and filtering features which led to a notable increase in user engagement.
